<ul style="list-style-type: none">I trained with frontend (CSS, HTML, JS), MySQL database and PHP online with the Company in Jordan with Mr. Hazem Ahmed for 108 hours.	
The Hope International	Jordan
Backend Developer	08/2022 - 10/2022
<ul style="list-style-type: none">I trained with Laravel and PHP online with the company in Jordan for 40 hours and learned object-oriented programming with PHP.solutions for 92% of computer errors, and escalated more complex tickets to higher tiers to assist clients as quickly as possibleCreated user accounts for 50+ clients per week, and assisted them with setting up and customizing their accountsCreated and updated documentation as needed concerning network, software, and hardware problems.	

Projects

Electronic Store:	Location
	Date period
Short summary of your work	
<ul style="list-style-type: none">The electronic store that was built using Laravel as backend and ReactJS as frontend frameworks and MySQL as the database, is a fully functional e-commerce website that allows users to buy products online. The system has access controls implemented to differentiate between admin and user roles, enabling them to manage and control their respective CRUD operations on products, orders, and customers.	

Education

Bethlehem University	
I studied software engineering at Bethlehem University.	08/2019 - 07/2023

Awards

-  List of Deans and Honors in the College of Software Engineering.

Skills

API Integration • CSS • Debugging • Github • HTML • Javascript • Laravel • MySQL • node.js • ES6 React.JS TypeScript • Object-Oriented Programming • PHP • Restful API • SQL

Languages

Arabic Native ●●●●●

English Proficient ●●●●●

Strengths

- **Backend Development**
Acquired hands-on experience in backend development using Node.js and optimized database queries
- **Full Stack Development**
Trained in frontend (CSS, HTML, JS), MySQL, and PHP, and worked on a project with Be Programmer
- **Software Engineering Best Practices**
Demonstrated effective collaboration and seamless integration of new features through successful deployment of pull requests
- **JavaScript and React.js Expertise**
Extensive training in advanced JavaScript and React JS with Gaza Sky Geeks
